- Network security basics
- VS Code

LANGUAGES

- Somali — Native
- English — Fluent

STRENGTHS

- Self-taught and self-driven learner
- Detail-focused on clean UI
- Consistent project builder
- Open to feedback & mentoring

PROFILE

Computer Science student at Jamhuriya University, currently in my third semester, specialising in Networking Security. Alongside my studies I am a self-taught web developer, learning since 2025 and building real projects — from business websites to responsive front-end layouts. I am looking for an internship or junior developer role where I can contribute, keep learning, and grow into a professional engineer.

EDUCATION

Jamhuriya University
2025 – Present

Computer Science — Department of Networking Security

Currently in the third semester. Studying programming fundamentals, computer systems, data communications, networking and network security.

Imamu Malik School
